

Obsah

| | |
|---|-----------|
| Michal BARCIKOWSKI, Waclaw KRÓLIKOWSKI | 1 |
| Characteristics of Impact Damage and Post-Impact Strength in Glass-Fibre-Reinforced Plastics with Different Reinforcement Architecture | |
| Matěj BARTECKÝ | 13 |
| Finite Element Analysis of Membrane of Automotive Key | |
| Sándor BODZÁS, Illés DUDÁS | 19 |
| Comparative Finite Element Method Analysis of Spiroid Worm Gear Drives Having Arched Profile and Having Linear Profile in Axial Section | |
| Radek ČADA, Jan ZLÁMALÍK | 27 |
| Project of Economically Profitable Technological Process of Production of Rotor and Stator Plates of Inductive Position Sensor by Blanking and Roll Bending | |
| Josef DOBEŠ, Milada KOZUBKOVÁ | 39 |
| Modelling of Cavitation of Wash-Out Water, Ammonia Water, Ammonia Water with Increased Content Ammonia and Hydrogen Sulphide, Tar Condensate | |
| František FOJTÍK | 51 |
| Application of Selected Multi-axial Fatigue Criteria Are Using Fifth-dimensional Space on the Results of Fatigue Experiments | |
| Marek GEBAUER, Jan SZWEDA | 61 |
| Simulation of Welding of Thin-Walled Pipe | |
| Vladimír GOGA | 67 |
| Finite Element Model of the Strain Gauge For Determining Uniaxial Tension | |
| Wiktor HUDY | 75 |
| Analysis of Parametric Optimization of Field-Oriented Control of 3-Phase Induction Motor with Using Evolutionary Algorithm | |
| Pawel JURECZKO, Damian GAŚIOREK, Michal BACHORZ, Lukasz JUSZYŃSKI | 85 |
| Prototype Multifunctional Device for Contraction Exercises of Joints and Muscles of the Lower Limb | |
| Richard KLUČKA, Luboš PEČENKA, Jana PRZECZKOVÁ, Karel FRYDRÝŠEK | 95 |
| Numerical Calculation of Overpressure and Underpressure of Reservoir Z2 | |
| Miloš MADIĆ, Miroslav RADOVANOVIĆ, Marin GOSTIMIROVIĆ | 99 |
| Selection of Near Optimal Laser Cutting Parameters in CO ₂ Laser Cutting by the Taguchi Method | |

| | |
|--|------------|
| Lucie MALÍKOVÁ, Václav VESELÝ | 109 |
| Williams Expansion Terms and their Importance for Accurate Stress Field Description in Specimens with a Crack | |
| Ondřej MAREK, Aleš BÍLKOVSÝ, Petr JIRÁSKO | 115 |
| Simulation Model of the Weaving Machine “Camel” and Selection of the Sufficient Driving Motor | |
| Martin MARIŠKA, Petr DOLEŽEL | 121 |
| Piecewise-Linear Neural Network – Possible Training Algorithms Efficiency Comparison | |
| Marcel MORE, Ondřej LÍŠKA | 127 |
| Recognition of Gestures using Artificial Neural Network | |
| Marek NIKODÝM, Karel FRYDRÝŠEK | 133 |
| About Central Difference Method Applied for the Beams on Elastic Foundation | |
| Zdeněk NOVÁK, Martin NOVÁK, Jan CHYSKÝ | 147 |
| Measuring Hysteresis Loop and Optimization of the Stator Tooth Width in the Permanent Magnet Synchronous Machine | |
| Stanislav SEITL, Jan KLUSÁK, Pelayo FERNANDEZ, Alfonso CANTELI | 155 |
| Comparison of Analysis Methods of Data from Thermographic Measurements of Al 2024 Fatigue Limit For R=0.1 | |
| Irina SEMENOVA, Petr HORYL | 163 |
| The Influence of the Basic Parameters of the Numerical Model on the Contact Pressure in Dynamic Tasks | |
| Ján VACHÁLEK, Michal BARTKO | 169 |
| Online System Identification Method Using Modified Regularized Exponential Forgetting | |
